Summary

I am a Full Stack Software Developer with a background in HTML, CSS, Javascript, PHP, and several libraries and frameworks. I am a hardworking and dedicated individual that brings my passion for creating exciting and functional products into each project I am involved with.

Languages & Frameworks

AJAX | AWS **|** Bulma | CSS **|** Express.js | HTML5 **|** jQuery | JavaScript **|** JSON | Laravel **|** Material UI **|** NodeJS **|** Next.js **|** PHP **|** React.js **|** Redux

Management & Deployment

Command Line **|** Git **|** GitHub **|** Heroku | Cloudfront

Databases

MongoDB **|** Postgres **|** SQL | DynamoDB | S3

Experience

Web Developer (Contract), SJ Design Studio; Plano, TX - Feb 2020 - Present

Directly assisting lead developer in building a content creation tool that allows companies to make static websites for their users to interact with.

- Technologies used: React.js (with hooks), Laravel, AWS (S3, Cloudfront, Appsync, DynamoDB), GraphQL (migrating from MySQL), Matomo
- Built out various components such as displaying analytic data, creating various content creation components for the tool, and building s3 upload logic via API calls to the backend.

Software Engineering Immersive Fellow, General Assembly; Remote - Aug 2020 - Nov 2020

An intensive 14 week program that teaches the basics of web development and programming languages

- Worked on three web applications individually and two in a group setting for projects
- Daily coding exercises involving formatting, styling, and programming logic
- Nightly and weekend homework going over and beyond what was covered during class

Assistant Music Director, School of Rock; Rockwall, TX – May 2018 - Aug 2020

Teaching children ages 6-18 about music through songs written by a variety of rock bands from the 60s to 2000s

- Taught private music lessons and ran group rehearsals
- Spoke with parents/created lesson notes to share their student's progress
- Assisted Music Director in planning shows, booking venues, and other administrative tasks

Resident Assistant, Southern Methodist University; Dallas, TX – Aug 2014 - May 2017

Working with and leading several hundred students in a residence hall and acquiring skills such as teamwork, hard work, leadership, problem-solving, customer service, organization, and effective communication strategies.

- Planned events for residents and enforced policy
- Weekly meetings with the staff, and constant communication with residents

Education

Software Engineering Certificate, General Assembly, 2020
BA Music Education, Southern Methodist University, 2017
